

Community Bible Study International

“Everyone in the world ... in the Word.”

“God Saved Me to Serve Him”

June 2010

Dear Ministry Partner,

It is a joy to tell you about Devendra, a godly man who, with your help, can minister with CBSI in India even more effectively than he already has been doing.

Devendra’s father was a works-oriented Christian, and his mother’s Hindu relatives influenced him strongly. In college, however, he became friends with a Scottish missionary who played table tennis, a game Devendra loved. The missionary encouraged him to attend a Christian fellowship group, and at one of their camps, Devendra received Christ as his Savior and Lord. “God thoroughly changed me,” he says. “I went from being shy and reserved to outgoing and eventually was elected president of the student fellowship. Others recognized my leadership ability and passion for Scripture study as gifts from the Lord.”

With Devendra going in this direction, his father stopped supporting him financially. On his own, Devendra attended Bible college in Canada, graduated from Dallas Seminary, got married and returned to his home country. As a missionary with Action International Ministry in northeast India, he has started CBSI in a Christian college and in home groups with professional young adults. “When people see CBSI, they want to start it in their own areas, so I believe it will roll out fast here,” he says. “One of our class members, who has accepted Christ and is eager to learn from the Bible, gives us special joy. It is exciting to see God changing people when they delve into His Word, share what they have searched out and can give reasons for their faith.”

Devendra baptizes a new follower of Jesus Christ, in very shallow water.

Thank you for engaging with us in obeying God’s Great Commission to make disciples of Christ in all nations! Will you continue with us in prayer and financial support so that, with translated materials, even more people in India can enjoy Bible study in their heart language?

We are very grateful for you!
